FRONTEND DEVELOPER

Versatile professional with a background in graphic design, specializing in JavaScript, React, and UI development technologies. Experienced in creating responsive, elegant, and engaging web experiences while ensuring adherence to design principles and seamless user interaction. Proficient in Adobe Creative Suite, with a passion for continuous learning and collaboration in Agile environments.

CORE COMPETENCIES

• WEB DEVELOPMENT • FRONTEND (HTML, CSS, BOOTSTRAP, TAILWIND, TYPESCRIPT, JAVASCRIPT) • BACKEND (MONGODB, EXPRESS, NODE.JS, PYTHON, JAVA) • USER EXPERIENCE DESIGN • USER INTERFACE DESIGN

EDUCATION

MITxEDU : 2022 - 2023 Professional Certificate in MERN Stack / Software Development in MERN Stack

Maryland Institute College of Art : 2015 - 2019 BFA / Graphic Design

EXPERIENCE | PROJECTS

ONLIFE LLC | REMOTE | 2022 – PRESENT |

Software Developer I

- Collaborated with UX/UI designers to implement wireframes into cohesive and seamless user interfaces, ensuring alignment with project goals.
- Utilized Tamagui UI library, Tailwind, and Bootstrap frameworks to enhance design consistency and streamline production processes, resulting in faster delivery of high-quality designs.
- Led initiatives to synchronize design systems across multiple applications, resulting in a unified user experience and improved efficiency in development workflows.
- Shabits:
 - Established and maintained a design system to ensure consistency and efficiency in UI development processes.
 - Optimized production speed and design consistency by implementing Tamagui UI library, resulting in improved efficiency and streamlined workflows.
- Sleeper:
 - Conducted market research to inform app development goals and enhance user experience, resulting in a more targeted and engaging product.
 - Designed and developed a React Native app to increase user engagement and improve functionality, resulting in positive user feedback and increased usage.

MITxEDU | ONLINE | 2022 – 2023 |

Software Development

- Completed MERN full stack bootcamp, mastering JavaScript, React, Express, Node.js, and MongoDB, equipping myself with the skills necessary for full stack development.
- Demonstrated hands-on experience through project-based learning, refining skills in application development and building real-world projects.
- Hacker News Clone:
 - Utilized Hacker News' API to fetch and display data, ensuring real-time updates and relevant content for users.
 - Designed and implemented a cohesive user interface using Tailwind and Typescript, resulting in an intuitive and visually appealing application.
- Bad Bank:
 - Developed a full stack web application with React frontend and Firebase backend for seamless user experience, ensuring secure data handling and efficient user interactions.
 - Integrated Firebase SDK for backend-as-a-service functionalities, resulting in scalable and reliable data storage and retrieval.
